FAISAL REHMAN

Fresher

About Me

I am a highly motivated and detail-oriented IT graduate with a strong foundation in software development, data structures, and system management. I possess hands-on experience with programming languages like Java, Python, and SQL, along with a keen interest in areas such as web development, cybersecurity, and cloud computing. As a quick learner and effective team player, I am eager to contribute to innovative projects and grow within a dynamic tech-driven environment. I am committed to continuous learning and ready to take on real-world IT challenges with enthusiasm and dedication.

Skills in AI

- Strong foundation in machine learning algorithms and concepts, including supervised and unsupervised learning, feature selection, model evaluation, and optimization.
- Proficient in Python, along with libraries such as TensorFlow, Keras, Scikit-Learn, Matplotlib, Seaborn, and Pandas.
- Experience with data visualization tool like Tableau for data analysis and presentation.
- Strong problem-solving skills with the ability to analyze complex data sets and derive meaningful insights.

Internship:Soft Skills and Microsoft Office by 10 Seconds (July 2022, August 2022)

- Enhanced time management and organizational skills through structured training sessions
- Improved email etiquette, formal communication, and document formatting in Microsoft Word
- Acquired foundational skills in data entry and analysis using Microsoft Excel
- Created professional presentations with design and formatting best practices in PowerPoint
- Participated in interactive sessions to build confidence in public speaking and group discussions
- ·Learned to apply soft skills in real-world team and workplace scenarios
- Understood the importance of professionalism, collaboration, and adaptability in a corporate environment·

Workshop: Ethical Hacking & Cyber Security Organized by NICC (21st August to 23rd August 2023)

- Participated in a 3-day hands-on workshop on Ethical Hacking and Cyber Security
- Gained insights into cyber threats, vulnerabilities, and defensive mechanisms
- Learned basic techniques of penetration testing and network security
- Explored topics like phishing attacks, malware detection, and data protection
- Enhanced awareness of safe digital practices and ethical responsibility in cyberspace

Banglore,India

Other Pursuits

Personal Coding Projects, Game Development ,Competitive Programming Photography & Graphic Design, Fitness & Outdoor Activities, Public Speaking & Debate, Traveling

Industry expertise

Information Technology,Internet of Things (IoT), Database Management Artificial Intelligence,Full Stack Development, Prompt engineering.

Qualifications

B.E in Artificial Intelligence and Data Science ,(Navkis College of Engineering) Visvesvaraya Technological University. (2025) CGPA: 7.9

Tools & software

Jupyter, Tableau, Power Bi, Lucid Charts, Jira, Salesforce, Confluence, MS Project.

Languages

English, Hindi, Kannada

Technology or Domain

Information Technology

Artificial Intelligence

Data Science

Machine Learning

Software Development

Web Development

Error Debugging

Event: Mini Project Expo – 2024
Organized by Department of IT , Navkis college of Engineering, Hassan (1st August 2024)

- Participated in the Mini Project Expo 2024, presenting an innovative technical project
- Gained hands-on experience in explaining project objectives and outcomes to evaluators
- Demonstrated skills in team collaboration, project design, and technical presentation
- Engaged in peer-to-peer learning through interaction with diverse project teams
- Strengthened confidence in articulating technical concepts to academic and industry visitors

Event: IEEE Project Expo-2025

Organized By IEEE CEDA (29th April 2025)

.

- · Participated in IEEE Project Expo - 2025 held in Hassan.
- · Presented a project at the IEEE Project Expo - 2025, organized by IEEE CEDA Bangalore Chapter and Department of ECE.
- · Engaged with a technical exhibition conducted in association with IEEE Bangalore Section and Mysore Subsection.
- · Received a Certificate of Participation for showcasing a project at Navkis College of Engineering, Hassan.
- · Gained experience in presenting technical work at an IEEE-affiliated event.
- · Demonstrated initiative by participating in an engineering project expo during academic studies in Karnataka.
  -

Internship: Ethical Hacking and Cyber Security

Organized by NICC. (October 2013 to November 2023)

- · Completed a specialized internship in Cyber Security (VAPT of Web Applications) at National Information and Cybersecurity Council (NICCC).
- · Gained hands-on experience in Vulnerability Assessment and Penetration Testing (VAPT) of Web Applications.
- · Conducted practical training in Networking, Web Application Scanning, Vulnerability Analysis, and Penetration Testing.
- · Actively participated in tasks and projects related to cyber security methodologies.
- · Demonstrated strong work ethic, punctuality, diligence, and an eagerness to learn throughout the internship.
- · Acquired practical skills in identifying and mitigating security vulnerabilities in web applications.
- · Enhanced knowledge of common cyber threats and defense mechanisms.
- · Collaborated with industry professionals at the National Cybersecurity Centre of Excellence (NCCCE).
- · Successfully completed an intensive internship program from October 25, 2023, to November 24, 2023.
- · Showcased commitment to professional development in the field of cybersecurity.
- · Applied theoretical knowledge to real-world cybersecurity challenges.

Internship : CifTech Solutions pvt. Ltd Bangalore (November 2024 to January 2025)

- · Successfully completed a comprehensive internship at Ciftech Solutions Pvt. Ltd. from September 10, 2024, to December 30, 2024.
- · Developed a full-stack project: "A Study of Hospital Management System", demonstrating proficiency in end-to-end software development.
- · Utilized .NET and MySQL DB for the development of the Hospital Management System, showcasing expertise in relevant technologies.
- · Contributed to a project aimed at improving structural efficiency within the hospital management domain.
- · Gained practical experience in project planning, execution, and delivery within a professional IT environment.
- · Received positive feedback on the project's potential helpfulness for future endeavors and structural improvements.
- · Applied academic knowledge to a real-world software development challenge.
- · Enhanced skills in database management (MySQL) and application development (.NET).
- · Collaborated on a significant project that could provide valuable insights and guidance.
- · Demonstrated ability to create functional and impact software solutions.

Area of expertise

- ❖ Project Management
- ❖ Error Debugger
- ❖ Full Stack Developer
- ❖ UI/UX Designer
- ❖ Team Management

Projects Developed

- Car Parking Management
  (Full stack project)
- Self and Manual Driven Rover
  (IOT project)
- Loan Eligibility Prediction using deep learning methods
  (Academic Mini Project)
- Heart Rate Monitoring and stress level prediction using rPPG
  (Academic Major project)
- Health care and Hospital Management System
  (Full Stack Internship Project)
- Fienance Tracking Wallet
  (Full Stack Project)

Training and certifications

❖ Cyber Security Internship & Training
| National Information and Cyber security Council (NICC)

❖ Soft Skills & Microsoft Office Training
| 10 Seconds

❖ IEEE Project Expo - 2025 Participant
| IEEE CEDA Bangalore Chapter

❖ Mini Project Expo – 2024 Participant
| Department of IT, Navkis College of Engineering

❖ CifTech Solutions Internship
| Accadamic Internship 2024

❖ Certified in Program of Chat-GPT for Everyone (GUVI)

❖ Certified in AI tools and ChatGPT Workshop (be10X)

❖ Certified in Computing Skills for Business (Atingi)
